## ANNUAL GENERAL MEETING

In addition to being the members' decision-making body, the Annual General Meeting is an opportunity for members to review the annual report and audited financial statements to March 31, 2024, elect members of the Board of Directors and deal with any other business on the agenda. Workshops and training sessions will also be offered early in the day. This is a unique opportunity to network with actors and partners of Quebec's Indigenous tourism industry, face-to-face or virtually!

Please confirm your attendance by September 10, 2024 [by clicking here](#). You will be redirected to a registration platform. Once you complete your profile, you will find all relevant documents, including the agenda, the viewing link if you wish to attend remotely, and the positions up for election on the Board of Directors. This year, all accommodation and transport costs are assumed directly by members wishing to attend the meeting in person. Snacks, beverages and lunch will be provided on site at no charge during the meeting.
